THE NEW FULLY AUTOMATED PATTERNLESS EDGING SYSTEM

The Definition of Precision, Efficiency and Reliability

Visslo is one of the fastest growing Korean manufacturers of Patternless Lens Edgers, Blockers and Tracers. This innovative company started in 2004 and provides cost effective, fully automated, accurate machines • The ultimate trouble free equipment.

The Premier Edger F8

The F8 Premier is a state of the art 3-axis 3d patternless edger which can cut Acrylic 1.6, Glass, CR39, Polycarbonate, High-index and Trivex lens materials with reliability and precision. This convenient bench top unit offers the latest in lens processing technology with features such as a small 90mm wheel diameter to improve high base lens cutting accuracy. Visslo F8 has been designed for easy functioning, has a combined touch screen, keypad and a colour LCD screen. This unit can store up to 120 jobs or can be connected to a PC for mass job storage.

Supplied with pump and tank or mains water solenoid. 18 months warranty. Full training and installation given.
